
trade name: LUKAS Pure Artists' Pigments, Indian yellow, No. 2424

1. Identification of the substance, preparation and the company

trade name: Pure Artists' s Pigments, Indian yellow, No. 2424

Intended use: Pigment for grinding colours

LUKAS Künstlerfarben & Maltuchfabrik
Dr. Fr. Schoenfeld GmbH & Co.
Harffstr. 40
D-40591 Düsseldorf Tel. 0211/7813-0

In case of emergency: 0211/781340 (LUKAS laboratory)

2. Composition/information on ingredients

Name of substance: momoazo-pigment
CAS-Nr.: 6368-31-2
Alternative name: PY 74

3. Hazards identification

Hazard identification: Product can cause dust explosion.

4. First-aid measures

After inhalation dust: consult doctor in case of symptoms.

After skin contact: Instantly wash with water and soap and rinse thoroughly.

After eye contact: Rinse open eye thoroughly with plenty of water. Consult doctor in case of symptoms.

After swallowing: In case of swallowing rinse mouth with plenty of water. Consult doctor in case of symptoms.

5. Fire-fighting measures

Extinguishing media: CO₂, dry powder, water mist

Particular danger caused by material, it's combustion products or gases: With heating above decomposition temperature: production of carbon monoxide and nitroso gases

Special protective equipment: in the case of fire, wear respirator independent of surrounding air.

6. Accidental release measures

Procedure for cleaning: Adsorb mechanically and collect in a suitable container. Avoid production from dust.

In accordance with EU Directives

trade name: LUKAS Pure Artists' Pigments, Indian yellow, No. 2424

7. Handling and storage

Directions for safe handling: Handling as usual for working with chemicals. Avoid production of dust. Avoid skin and eye contact. Keep away from food and drink stuffs. Local ventilation. Earthing of equipment. Keep away from sources of ignition. Do not smoke.

Storage: Store in a cool and dry place.

8. Exposure controls/Personal protection

No more instructions. See 7.

Components with work-place related limits to be monitored:

MAK: 6 mg/kg (fine dust)

If workplace exposure limit is exceeded apply respiratory protective equipment

9. Physical and chemical properties

Form: powder
Colour: yellow
Odour: odourless
Density: 1,4 g / ml

Melting point: ca. 280 °C

Ignition temperature: > 290 °C

10. Stability and reactivity

Thermal decompositions: thermal decomposition begins above 290 °C (see also section 5).

Stability: No decomposition when stored and handled correctly. Caution: product can cause dust explosion.

11. Toxicological information

Acute toxicity: LD 50 (oral, rat) > 2000 mg/kg

Experiences with human beings: To date handling this product has not been known to cause any detrimental effects.

12. Ecological information

The product should not be allowed to enter drains or water courses.

13. Disposals considerations

Do not dispose in domestic waste.

Can be disposed of with domestic refuse in accordance with necessary technical regulations following consultation with waste disposal expert(s) and the responsible authorities.

In accordance with EU Directives

trade name: LUKAS Pure Artists' Pigments, Indian yellow, No. 2424

14. Transport information

Dangerous according to the transport regulations
GGVS/GGVE/RID/ADR/IMDG no

15. Regulatory Information

On the basis of information available to us, this product is not a hazardous substance in the sense of the law on chemicals or the regulations on hazardous substances in the version which is currently valid.

16. Other information

The data presented here correspond to the present state of our knowledge and experience and are intended to describe our product with respect to possible safety demands. We imply with this however no guarantee of properties or description of qualities.
